

Deere Group Binding Corporate Rules

Effective Date: May 25, 2018

JOHN DEERE

Deere & Company, and its controlled affiliates and subsidiaries (collectively, John Deere), strive to comply with applicable laws, including data protection laws, in the countries in which John Deere operates. Certain John Deere group companies have adopted these Binding Corporate Rules to ensure an adequate level of protection for Personal Data and Sensitive Personal Data that originate in the EEA and are subject to the EU Data Protection Directive or implementing member state legislation, as set out below, in order to allow for the transfer of Personal Data from the EEA to third countries in accordance with the data protection rules governing international data transfers.

1. Definitions

For the purpose of these Binding Corporate Rules, the following definitions apply:

BCRs means these Binding Corporate Rules.

Bound Group Member means Deere & Company, and all affiliates and other entities that are directly or indirectly controlled by Deere & Company, which have committed to upholding these BCRs by signing an intra-group agreement;

Controller means any natural or legal person that alone or jointly with others determines the purposes and means of the Processing of Personal Data;

Data Exporter means a Bound Group Member in the EEA that transfers Personal Data to another Bound Group Member outside the EEA;

Data Importer means a Bound Group Member that receives from the Data Exporter Personal Data for further Processing in accordance with the terms of these BCRs;

EEA means the European Economic Area, currently comprising the 28 EU member states as well as Iceland, Liechtenstein and Norway;

Employees means employees, workers, trainees and other staff members, including temporary workers of a Bound Group Member, whether employed or retained on a full or part-time basis and irrespective of the type of employment or retainer;

EU Data Protection Directive means Directive 95/46/EC of the European Parliament and of the Council of 24 October 1995 on the protection of individuals with regard to the processing of personal data and on the free movement of such data;

Personal Data means any information relating to an identified or identifiable natural person (Data Subject); an identifiable person is one who can be identified, directly or indirectly, in particular by reference to an identification number or to one or more factors specific to his physical, physiological, mental, economic, cultural or social identity;

Processor means any natural or legal person that Processes Personal Data on behalf of the Controller;

Center for Global Business Conduct

Process or Processing means any operation or set of operations that is performed upon Personal Data, whether or not by automatic means, such as collection, recording, organization, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction;

Recipient means a natural or legal person, public authority, agency or any other body to whom Personal Data are disclosed, whether a Third Party or not;

Sensitive Personal Data means Personal Data revealing racial or ethnic origin, political opinions, religious or philosophical beliefs, trade-union membership, information relating to criminal offences, or information concerning health or sex life;

Supervisory Authorities means the public authorities that are responsible for monitoring and enforcing the application within their respective territory of the national laws adopted by the EEA member states pursuant to the EU Data Protection Directive; and

Third Party shall mean any natural or legal person, public authority, agency or any other body other than the Data Subject, the Controller, the Processor and the persons who, under the direct authority of the Controller or the Processor, such as Employees, are authorized to Process the Personal Data.

2. Scope of these BCRs

These BCRs are intended to ensure an adequate level of protection for Personal Data (including Sensitive Personal Data) that are transferred to third countries outside the EEA. They apply to Personal Data (including Sensitive Personal Data) that originate in the EEA or that have otherwise become or are subject to the EU Data Protection Directive or implementing member state legislation and which are transferred from a Data Exporter to a Data Importer outside the EEA, relating to employees, dependents and job applicants; customers, prospects, borrowers, lessees and guarantors; dealers, suppliers, business partners, and their respective employees; shareholders; visitors; and other Data Subjects. For the sake of clarity, these BCRs also cover transfers of Personal Data covered by these BCRs to Data Importers who act as Processors for the Data Exporter.

These BCRs do not apply to Personal Data or Sensitive Personal Data that do not originate in the EEA and are not otherwise subject to the EU Data Protection Directive or implementing member state legislation. For example, if a US-based Bound Group Member transfers Personal Data originating in the US to an Australian-based Bound Group Member, such transfer and associated Processing is not subject to these BCRs. As another example, the Processing of Personal Data or Sensitive Personal Data of a borrower resident in the US by a non-EEA based Bound Group Member related to a transaction where that resident seeks a loan from a non-EEA based Bound Group Member is not subject to these BCRs.

3. Binding Nature of these BCRs

These BCRs are legally binding on every Bound Group Member by virtue of an intra-group agreement. All Bound Group Members shall implement and comply with these

BCRs. The executive management of each Bound Group Member is responsible for the implementation of, and compliance with, these BCRs by the respective Bound Group Member.

Every Bound Group Member shall strive to ensure that its Employees comply with the requirements set forth in these BCRs. Bound Group Members shall inform their Employees that failure to comply with these BCRs may result in disciplinary action or employment law measures (for instance, formal warning or dismissal) being taken against the Employees in accordance with applicable employment, labor and works council laws, company rules and employment contracts.

4. Privacy Governance Structure

Bound Group Members implement data protection processes and procedures, including the implementation of a global privacy network, designed to support its compliance with these BCRs and applicable data protection law.

Further to the foregoing, John Deere's Vice President and Chief Compliance Officer, who leads John Deere's Center for Global Business Conduct ("CGBC"), has the overall responsibility for the privacy governance structure. The Vice President and Chief Compliance Officer is responsible for overseeing compliance with applicable data protection laws in countries where Bound Group Members operate, Bound Group Member's policies related to the Processing of Personal Data and its commitments pursuant to these BCRs, and deals with any investigations conducted by Supervisory Authorities. The Vice President and Chief Compliance Officer makes regular at least once a year reports to the Corporate Governance Council of Deere & Company's Board of Directors, and has the opportunity to communicate independently and directly with the Council or Board, as needed.

Also, further to the foregoing, the Vice President and Chief Compliance Officer is supported by the Director, Global Business Conduct Strategy & Privacy Officer ("Privacy Officer") who directly reports to the Vice President and Chief Compliance Officer. The Privacy Officer is in charge of the strategy and execution of John Deere's compliance with applicable data protection laws and regulations, its policies related to the Processing of Personal Data and its commitments pursuant to these BCRs, and supervises the handling of local complaints from Data Subjects and reports serious privacy issues to the Vice President and Chief Compliance Officer.

Also, further to the foregoing, the Privacy Officer is supported by a global network of full-time and part-time individuals. The global privacy network consists of individuals who are responsible for monitoring compliance with applicable data protection laws and regulations, Bound Group Member's policies related to the Processing of Personal Data, and John Deere's commitments pursuant to these BCRs. The global privacy network also consists of individuals in the Bound Group Members who are responsible for business functions that are Processing Personal Data.

5. Training

Bound Group Members maintain awareness and training programs for Employees that Process Personal Data within the scope of these BCRs to make sure Employees

are aware of the obligations thereunder and enable Employees to comply with these BCRs. Training includes informing such Employees of the consequences of breaching these BCRs. Bound Group Members offer Employees who Process Personal Data subject to the BCRs on a permanent or regular basis (including Employees responsible for key business functions Processing Personal Data, Employees involved in the collection of Personal Data or Employees involved in the development of tools used in the Processing of Personal Data) additional, focused training on the BCRs and data protection laws. Further details of the training are outlined in a training program.

6. Audits and Monitoring

Compliance with these BCRs is subject to review and Bound Group Members agree to be audited on a regular basis in connection with their implementation of, and compliance with, these BCRs as follows. The audits cover all elements of these BCRs. Primary responsibility for the performance of audits lies with the John Deere internal audit department, but, if needed, Bound Group Members may entrust appropriate, external third parties with this task. The results of such audits will be communicated to the Vice President and Chief Compliance Officer and the Privacy Officer. Significant findings are reported to the Audit Review Committee of Deere & Company's Board of Directors.

The Vice President and Chief Compliance Officer or Privacy Officer may request additional audits or reviews outside the regular audit roadmap. In addition, the CGBC may also conduct audits in the form of a self-assessment by the Bound Group Members. The Privacy Officer receives the results of the self-assessment and informs the Vice President and Chief Compliance Officer and the John Deere internal audit department of significant findings.

If such audits determine that corrective action is needed, corrective actions will be implemented in the course of the audit process. Further details of the audits are outlined in an audit program.

7. Processing Principles

Bound Group Members commit to apply the following principles to the Personal Data transferred under these BCRs.

7.1 Purpose Limitation

The Personal Data shall be Processed for specific and legitimate purposes. Personal Data shall not be further Processed in a way incompatible with those purposes. The purpose of the Processing may only be changed if there is a legitimate basis for doing so in accordance with directly applicable EU law or the national law of the respective EU Data Exporter which originally transferred the Personal Data to a Data Importer outside the EEA, unless the relevant Personal Data have been rendered anonymous. The Data Exporters shall inform the Data Importers about the purposes for which the Personal Data are transferred and the Data Importers shall Process the Personal Data so transferred for this Purpose and in accordance with this Section.

7.2. Data Quality and Proportionality

The Personal Data shall:

- be accurate and, where necessary, kept up-to-date;
- be adequate, relevant and not excessive in relation to the purposes for which they are transferred and further Processed;
- not be Processed for longer than necessary for the purposes for which they are obtained and further Processed. Personal Data which are no longer necessary for the purposes for which they were collected and stored, shall be deleted or made anonymous, unless there is a legal ground for further Processing. Retention periods shall be specified in retention and similar policies.

7.3 Legal Ground for Processing

Bound Group Members shall ensure that the Personal Data are processed fairly and lawfully and in particular on the basis of at least one of the following legal grounds:

- The Data Subject has unambiguously given his/her consent.
- The Processing is necessary for the performance of a contract to which the Data Subject is party or in order to take steps at the request of the Data Subject prior to entering into a contract.
- The Processing is necessary for compliance with a legal obligation to which the Controller is subject.
- The Processing is necessary in order to protect the vital interests of the Data Subject.
- The Processing is necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the Controller or in a Third Party to whom Personal Data are disclosed.
- The Processing is necessary for the purposes of the legitimate interests pursued by the Controller or by the Third Party or Parties to whom Personal Data are disclosed, except where such interests are overridden by the interests for fundamental rights and freedoms of the Data Subject.
- The Processing is permitted under directly applicable EU law or the national law of the respective Data Exporter which originally transferred the Personal Data to a Data Importer outside the EEA.

Bound Group Members shall ensure that the Sensitive Personal Data are only Processed on the basis of at least one of the following grounds:

- The Data Subject has given his/her explicit consent to the Processing of those Personal Data.

- The Processing is necessary for the purposes of carrying out the obligations and specific rights of the Controller in the field of employment law in so far as it is authorized by national law providing for adequate safeguards.
- The Processing is necessary to protect the vital interests of the Data Subject or of another person where the Data Subject is physically or legally incapable of giving his/her consent.
- The Processing relates to Personal Data which are manifestly made public by the Data Subject.
- The Processing is necessary for the establishment, exercise or defense of legal claims.
- The Processing is permitted under directly applicable EU law or the national law of the respective Data Exporter which originally transferred the Sensitive Personal Data to a Data Importer outside the EEA.

7.4 Confidentiality and Security

Bound Group Members shall keep the Personal Data confidential and to protect Personal Data against accidental or unlawful destruction or accidental loss, alteration, unauthorized disclosure or access, in particular where the Processing involves the transmission of data over a network, and against all other unlawful forms of Processing by taking appropriate organizational and technical measures. For this purpose, the Bound Group Members have developed and implemented a number of security policies and practices, which include access control measures, measures to secure the integrity, availability and transmission of Personal Data and segregation controls.

Bound Group Members shall also ensure that their Employees keep the Personal Data confidential and secure, for instance, by means of confidentiality certifications or undertakings. Employees and Processors shall only be authorized to access and Process Personal Data to the extent that this is necessary in order for them to perform their job and otherwise in accordance with these BCRs and applicable law.

These measures provide a level of security appropriate to the risks represented by the Processing and the nature of the data to be protected. Where Sensitive Personal Data are Processed, enhanced security measures shall apply.

7.5 Rights Regarding Personal Data - Access, Rectification, Erasure, Blocking and Automated Decision-Making

Bound Group Members shall implement processes and procedures enabling every Data Subject whose Personal Data are subject to these BCRs to exercise their right, except where such rights may be restricted pursuant to directly applicable EU law or the national law of the respective Data Exporter which originally transferred the Personal Data to a Data Importer outside the EEA:

- to obtain without constraint at reasonable intervals and without excessive delay or expense a copy of all Personal Data relating to him/her that are being Processed;

- to obtain the rectification, erasure or blocking of Personal Data relating to him/her in particular because the data are incomplete or inaccurate;
- to object, at any time on compelling legitimate grounds relating to his/her particular situation, to the Processing of Personal Data relating to him/her, unless that Processing is required or permitted by law;
- to object, on request and free of charge, to the Processing of Personal Data relating to him/her for the purpose of direct marketing;
- not to be subject to an evaluation or decision which significantly affects him/her which is solely based on automated Processing of his/her Personal Data unless the decision is taken in the context of a contract where the request for this contract was lodged by the Data Subject, or suitable measures to safeguard the Data Subjects' legitimate interests are taken, or the automated decision-making is authorized by law.

Data Subjects can exercise these rights by emailing PrivacyManager@JohnDeere.com or writing to the following address:

EEA contact:

John Deere GmbH & Co KG
Data Protection Officer
John Deere Str. 70
68163 Mannheim
Germany

Non- EEA contact:

U.S.A.

7.6 Information

With respect to Personal Data that is subject to these BCRs, Bound Group Members shall inform Data Subjects about the following by means of a privacy policy or notice:

- the name and address of the company which is the Controller;
- the intended purposes of the Processing of Personal Data; and
- any further information such as the (categories of) Recipients of Personal Data; whether replies to the questions are obligatory or voluntary, as well as the possible consequences of failure to reply; the origin of Personal Data (if not collected directly from the Data Subject); and the existence of the Data

Subject's rights in so far as such further information is necessary, having regard to the specific circumstances in which the Personal Data are collected, to guarantee fair Processing in respect of the Data Subject;

Where the data have not been obtained from the Data Subject directly, in addition, the Bound Group Member must inform the Data Subject about the categories of Personal Data concerned.

The obligation to inform the Data Subject pursuant to this Section 7.6 does not apply if the Data Subjects are already aware of the information or the provision of such information proves impossible or would involve a disproportionate effort or if recording or disclosure is expressly laid down by law.

7.7 Onward transfers

With respect to Personal Data that is subject to these BCRs, every Data Importer commits to apply the following additional measures when sharing Personal Data with a Controller or a Processor.

7.7.1 Sharing Personal Data with a Controller

Every Data Importer shall only transfer Personal Data to another Controller if there is a legal ground for Processing in accordance with Section 7.3 and in accordance with the other Processing Principles listed in Section 7 of these BCRs. Where necessary and reasonably possible, the Data Importer shall obtain contractual assurances from the Controller to that effect.

7.7.2 Entrusting the Processing of Personal Data to a Processor

Every Data Importer that transfers to a Processor Personal Data covered by these BCRs shall choose a Processor providing sufficient assurances in respect of the technical security measures and organizational measures governing the Processing to be carried out. For the avoidance of doubt, this clause shall apply to both external Processors which are not Bound Group Members as well as Bound Group Members that act as Processors for other Bound Group Members.

The Processor shall be bound by a written agreement stipulating in particular that the Processor shall only act on instructions from the Data Importer and implement appropriate technical and organizational measures to protect Personal Data. The Processor shall also be bound to respect the confidentiality of the Personal Data. For this purpose, Bound Group Members may develop appropriate templates.

7.7.3 International Transfers

If a Data Importer transfers Personal Data covered by these BCRs to a Controller or Processor which is not a Bound Group Member and which is located in a third

country outside the EEA, it shall only transfer the Personal Data in accordance with Articles 25 or 26 of the EU Data Protection Directive. This may require:

- Concluding appropriate contractual clauses with the Recipient, where appropriate on the basis of the [EU Standard Contractual Clauses](#) for data transfers approved by the European Commission;
- Using another European Commission approved data transfer mechanism; or
- Satisfying one of the legal grounds for transferring Personal Data internationally set out in the EU Data Protection Directive, namely with the unambiguous consent of the Data Subject or where the transfer is necessary (i) to conclude or perform a contract concluded with the Data Subject; (ii) or legally required on important public interest grounds or for the establishment, exercise or defense of legal claims; or (iii) to protect the vital interests of the Data Subject.

Where required, the Data Exporter shall obtain authorization from a competent Supervisory Authority.

8. Complaint Mechanism

Data Subjects can at all times file a complaint regarding a Bound Group Member's compliance with these BCRs. Data Subjects may raise their concerns by completing and submitting the online Privacy Complaint Form, which is available at, <https://app.onetrust.com/app/#/webform/bf603b4b-75e1-4568-a4dd-28a74a890c07> or addressing their complaints to: PrivacyManager@JohnDeere.com or writing to the contacts provided in Section 14.

The complainant will receive a confirmation of receipt of the complaint and every complaint will be answered within a reasonable timeframe - usually within six (6) months of receipt of the complaint. The time frame may be extended in case of delays not attributable to any Bound Group Member. The Privacy Manager may work with Bound Group Members, technical experts, legal advisors and translators, to resolve the complaint. Further details are outlined in a Complaint Handling Policy.

If the matter is not satisfactorily resolved in accordance with the complaint procedure, the Data Subjects can lodge a claim before a competent Supervisory Authority or a court as described in Section 12. Whilst it is not required, Data Subjects are encouraged to first report their concern through the complaint mechanism. This is to enable John Deere to provide an efficient and prompt response to the issue.

9. Liability

John Deere GmbH & Co KG, John Deere Str. 70, 68163 Mannheim, Germany, accepts responsibility for any breaches of these BCRs by any Bound Group Member outside of the EEA and undertakes (i) to take the necessary action to remedy a breach committed by Bound Group Members outside of the EEA; and (ii) to pay appropriate compensation to any Data Subjects whose Personal Data are subject to these BCRs for any damages resulting from the breach of these BCRs by Bound Group Members outside the EEA in the same way and with the same scope from which the Data Subjects would benefit under either German law or the law of the EEA country of the respective Data Exporter in the EEA.

No provision of these BCRs shall allow any Data Subject to benefit from compensation for any damages beyond this, in particular any double recovery from or punitive damages for or compensation for damages relating to third parties for any breach of these BCRs or the intra-group agreement shall be excluded. Nothing in this clause excludes or limits liability for death or personal injury caused by either John Deere GmbH & Co KG or a Bound Group Member, for fraud or other liability caused by any intentional or gross negligence by John Deere GmbH & Co KG or a Bound Group Member.

10. Relationship between BCRs and National Law

In case local legislation in the EEA applicable to a Bound Group Member's Processing of Personal Data requires a higher level of protection for Personal Data, it will take precedence over these BCRs.

Where a Bound Group Member has reasons to believe that legislation applicable to it prevents the company from fulfilling its obligations under these BCRs and has substantial effect on the guarantees provided herein, the Bound Group Member will promptly notify John Deere GmbH & Co KG, except where providing such information is prohibited by a law enforcement authority or law. In that case John Deere GmbH & Co KG, in consultation with the Bound Group Member, shall reasonably determine the appropriate course of action and, in case of doubt, consult with the competent Supervisory Authority/ies.

The requirements of Sections 7.1 (Purpose Limitation), 7.2 (Data Quality and Proportionality), 7.5 (Rights Regarding Personal Data) and 7.6 (Information) may be set aside to the extent permitted by directly applicable EU law or the national law of the respective Data Exporter which originally transferred the Personal Data to a Data Importer outside the EEA.

11. Mutual Assistance and Cooperation with Supervisory Authorities

Bound Group Members will reasonably cooperate and assist each other to handle requests or complaints from Data Subjects with regards to these BCRs.

Supervisory Authorities who have approved these BCRs or who have jurisdiction over Bound Group Members under these BCRs may verify Bound Group Member's compliance with these BCRs. Bound Group Members further undertake to reasonably cooperate with competent Supervisory Authorities regarding investigations, audits or inquiries regarding compliance with these BCRs and abide by legally binding advice of the competent Supervisory Authorities with respect to the interpretation and application of these BCRs.

12. Third-Party Beneficiary Rights

Data Subjects whose Personal Data are subject to these BCRs have the right to enforce Sections 7, 8, 9, 10 s.2, 11, 12 and 14 s.2 of these BCRs by virtue of third-party beneficiary rights, subject to the other provisions of these BCRs.

Data Subjects whose Personal Data are subject to these BCRs can seek to enforce compliance with the above-mentioned rules and may claim compensation for damages by lodging a complaint before the competent Supervisory Authorities and before the competent courts in the EEA, but not before any other supervisory authority, tribunal or court in any non-EEA jurisdiction. In case of a breach of these BCRs by Bound Group Members outside the EEA, they may also lodge a complaint before the competent Supervisory Authorities and before the competent courts in the EEA, either of the jurisdiction of the Data Exporter as defined under these BCRs, or of the jurisdiction of John Deere GmbH & Co KG in which case the authorities or courts will have jurisdiction and the Data Subjects will have the rights and remedies against John Deere GmbH & Co KG as if the violation by the Bound Group Member outside the EEA had been committed by John Deere GmbH & Co KG. If a Data Subject brings such a claim, the burden of proof for demonstrating that the Bound Group Member outside the EEA is not responsible for the violation of these BCRs on which the Data Subject's claim is based lies with John Deere GmbH & Co KG. If the latter can prove that the Bound Group Member outside the EEA is not responsible for the act, it may discharge itself from any responsibility.

For the avoidance of doubt, these BCRs shall not affect the rights of Data Subjects under applicable local data protection legislation in the EEA or prejudice or otherwise limit the ability of Data Subjects to enforce their rights in accordance with any applicable local legislation in the EEA.

13. Updates of the Content of these BCRs and List of Bound Members

These BCRs may be updated and amended. John Deere GmbH & Co KG shall inform the competent Supervisory Authorities once a year of any substantial change to these BCRs or to the list of Bound Group Members and also inform the Data Subjects of such changes in an appropriate manner. John Deere GmbH & Co KG shall report all changes to the BCRs to the Bound Group Members.

The Data Protection Officer of John Deere GmbH & Co KG shall keep a fully updated list of the Bound Group Members, which is provided at here, and keep track of and record any updates to the BCRs. No transfers of Personal Data under these BCRs will take place until the new member is effectively bound by these BCRs.

14. Publication

These BCRs shall be published and a link shall be made available on the website of every Bound Group Member and for Employees on the Intranet. Data Subjects may request a copy of these BCRs by emailing PrivacyManager@JohnDeere.com or writing to the following address:

EEA contact:
